DARING ACT OF BANDITS

They Hold Up, Rob, and Burn a Train.

The Authorities Scouring the Surrounding Country.

The Locomotive Sent Flying Into the Passenger Cars to Destroy Them.

ALBUQUERQUE, N.M., November 6.—The boldest and apparently the most successful holdup in the history of the Santa Fe-Pacific railroad occurred tonight at about 9 o'clock near Grant's station.

The regular passenger train reached Grant's about thirty minutes late and consisted of mail, baggage car, the regular baggage car, and express car, a day coach, a chair and two sleepers.

On going to a water tank at a siding two miles east of Grant's, known as Saint's, the train was taken possession of by the bandits, the party being supposed to consist of four men, as no more than that could be seen.

After securing the train one of the men took the engine and another member of the party cut the train in two just ahead of the day coach, and the engine and the attached cars were taken half a mile further east.

At the point where the express car was cut off the messenger was ordered out of the car, and none but the robbers went on ahead.

As soon as the train was cut Conductor Aldrich walked to Grant's station and sent a message to Sheriff Hubbell of this county saying, "Train No. 2 held up at Grant's. Robbers have taken possession of train and run out east about a mile and a half. They were blowing up the safe in the express car just as I started to walk back to the station. They had no horses, but it is likely they had horses near where they stopped the train."

About the same time a message was received from Division Superintendent Hibbard at Gallup saying, "Our No 2, held up at Grant's. Can't say result of the robbery, but express has been blown up and operator at Grant's thinks it is being burned, as he sees a fire in the direction of the train. Please send posse to pursue robbers."

In response to these messages train No. 1 from the East was taken by Sheriff Hubbell and Deputy Fornoff, who are now on their way to the scene. A later message says that after the robbers had blown up the safe in the express car and looted it, the engine and cars were abandoned and run back into the cars standing on the track.

It is presumed that they wantonly reversed the engine and sent it back to make a complete wreck and block the track. If such were their intentions they were entirely successful, for the express car, the day coach and chair car were telescoped, afterwards taking fire and being totally destroyed.

The baggage in the baggage car was all taken out before the fire reached it. There has as yet been no word received that would indicate any loss of life or bodily injury, but the question will be in doubt until someone arrives from the scene.

Later report reaches here of a rumor that when Engineer Henry McCarty was ordered from his engine, Fireman Henry Abel was taken on ahead by the robbers and was killed by the explosion when they blew up the safe.

ENDORSE THE GRAND JURY.

A Lively Meeting In Hanford Yesterday Afternoon.

HANFORD, November 6.—The mass meeting held in this city this afternoon was attended by several hundred people. The meeting was for the purpose of publicly ratifying the action of the recent grand jury in reporting adversely on the proposition to build a county hospital and also in denouncing the recent purchase of furniture for the new court house, the price of which, it is claimed, was double what it should have been.

T. J. McQuiddy presided at the meeting and all of the members of the board of supervisors were present. Chairman Long of the supervisors defended the action of the board and explained in detail the furniture deal. He also spoke in favor of the proposition of the supervisors to build a hospital. Barney and Frazier also defended their actions as supervisors. N. W. Motheral, formerly horticultural commissioner, spoke vigorously in opposition to the supervisors. Several others also addressed the meeting.

Resolutions were passed endorsing the grand jury and commending its fidelity to the interests of the people. The grand jury report promises to be the means of mixing politics up considerable in Kings county, as the board of supervisors is composed of Populists, Republicans and Democrats.

ACCIDENTAL SHOOTING.

The Schoolboy Episode In Fancher Creek District.

Jeff Davis of Fancher Creek district was in town yesterday, and he stated that after an investigation of the reported attempt of one schoolboy to murder another in that section, as published in yesterday's REPUBLICAN, he believed that it was a case of accidental shooting.

Mr. Davis thinks the Cramner boy had imbibed too much wine, and as a precaution against getting into trouble had removed the cartridges from his pistol. He overlooked one, however, and this was accidentally discharged, wounding the victim in the thigh.

THE "COMPETITOR" AFFAIR.

Alleged Fillbusters to Be Tried by Courtmartial.

WASHINGTON, November 6.—A telegram came to the state department today from Acting United States Consul-General Springer at Havana as follows: "Trial by courtmartial of Competitor prisoners will be held Monday next. Will attend."

There are five of these prisoners, namely: Alfred Laborde, William Gildea, Ona Melton, Charles Barnett and William Leavitt. They were arrested on the Competitor April 25, 1896, on a charge of landing arms for the insurgents, and have been held in close confinement ever since. On May 8, 1896, they were tried by a naval courtmartial and sentenced to death. Only the most energetic action by the United States government prevented the immediate execution of this sentence.

THE PRESIDENT BUSY.

Anxiously Considering Alaskan and Diplomatic Matters.

WASHINGTON, November 6.—There was an unusually large number of people at the White House, all anxious to see the president. The president is much concerned over the representations that many persons are in a starving condition in Alaska and it is probable the matter will be fully discussed at the next meeting of the cabinet.

In the afternoon Mr. McKinley gave considerable attention to diplomatic matters.

The president is preparing preliminary notes for his first message and is consulting with Mr. Day on matters relating to foreign affairs.

The Ohio Contest Ended.

COLUMBUS, November 6.—The only important development in the status of the new general assembly today was the decision in the Wood county case, which once more removes that county from the doubtful list to the Republican column. The court instructed the election supervisors of Wood county to canvass the returns from the disputed precinct, which gives the election to Capt. O. P. Norris, the Republican candidate for representative, by thirty-one plurality.

In an interview today Chairman Myers of the Democratic committee said: "The situation is the same now as it was Wednesday morning. The Democrats have the senate by a majority of two. The house stands 58 Republicans to 51 Democrats. McConnville will go on claiming until he goes back to Washington, but he wont do any good. We are beaten, and I knew it Wednesday morning."

BARON IN JAIL.

Imprisoned for Contempt of Court.

He Neglected To Obey Judge Webb's Order To Pay Alimony.

G. A. BARON, the well known business man who conducts a plumbing and cornice establishment near the corner of J and Tulare streets, was yesterday sent to jail by Judge Webb for contempt of court. He neglected to obey the order of the court week before last to pay $20 as alimony and $50 as attorney fees to Mrs. Baron, pending the suit for divorce she has instituted.

Baron was sworn yesterday, and testified that he had no property and was unable to comply with the order of the court. His wife claims that he signed away his holdings in attempting to escape paying her what the court orders.

Pending the suit Judge Webb ordered that the defendant pay his wife $20 a month alimony. The attorney fees of $50 and the $20 for the first month was to be paid within five days after the court's order. Baron neglected to comply, however, and he appeared yesterday morning in response to the citation issued for him.

Judge Webb ordered him confined in jail till he paid the money. Baron is still locked up, and he declares that he is unable to obey the order.

ADULTERY CHARGE.

William Moon Deserted His Family For Maud Buckingham.

William Moon, a barber, employed at a ten cent shop on Mariposa street, was arrested last night on a charge of adultery sworn out against him by J. W. Fisherty. Deputy Constable Con Ancel arrested Moon as he was quitting work about 10 o'clock.

Moon is a man of twenty-five or thirty years of age. He has a wife and several children that he deserted some months ago and left to the cold mercies of the world. Moon became infatuated with a woman named Maud Buckingham, and has been living with her for some time. Maud has an unenviable reputation and will also be prosecuted on the same charge. The officer was unable to serve a warrant on her last night, as she had left her room at 1150 J street.

Gold From Cook's Inlet.

SEATTLE, Wash., November 6.—The schooner M. M. Morrill, Captain N. V. Johnson, arrived here this afternoon from Cook's Inlet, Alaska, with nine passengers and about $20,000 in gold. Half of this amount is the property of the United States Mercantile Company. The other half is distributed between A. Williamson of California, William Ellis and L. F. Arthur of Oregon, who have claims on California creek, a tributary of Twenty Mile creek.

The Latest Motor Power.

SAN FRANCISCO, November 6.—The *Call* says the equipment and operation of the Market Street Railway Company's system with compressed air power is now only a question of time. The new system will supplant the use of electricity and cable on the Market street system.

DE LASHMUTT A DEFAULTER

Skipped From Selma Thursday.

The City Marshal Short in His Accounts.

Meeting of The Town Trustees Last Evening—Took About $500.

City Marshal William De Lashmutt of Selma is a fugitive from justice. Thursday night the City Marshal disappeared for parts unknown and he is said to be short in his accounts several hundred dollars. The exact shortage is not known, but parties who know the Marshal intimately say that he is a defaulter to the amount of about $500.

The City Marshal is a young man, being between 25 and 30 years old. He has always had a good reputation for honesty up to the present time and his most intimate associates are at a loss to understand what led him to become a defaulter.

During the last six weeks De Lashmutt has frequently visited Fresno, and several times remained for a number of days. A "lady" friend seemed to be the attraction, and as he was not known to gamble, it is suspected that she had something to do with his downfall.

De Lashmutt received $10 a month as city marshal and was a deputy under Constable R. E. Zimmerman. His deputyship raised his monthly income to about $40. This is not a large enough income to satisfy a man with luxurious tastes and a penchant for fast women, but as the marshal was single and apparently economical his friends imagined that he was living within his means.

One explanation of the shortage is that while collecting city licenses it was customary for the marshal to pay his bills by giving a receipt for the license. It seems that the merchants used this means of securing the payment of their accounts against De Lashmutt, who used his monthly income for other purposes than making good the deficit to the city.

De Lashmutt was in Fresno last Monday or Tuesday and his actions led several to think that something was wrong. He told a friend that he was in trouble and that some one else was to blame for it. His object in leaving is said to be to prevent his mother from coming to his assistance and pay off the deficit. She has a little property and is very much devoted to her son, and he knew she would sacrifice everything to save him from disgrace and, perhaps, the penitentiary.

De Lashmutt, it is believed, went to San Francisco and from there to some point in Oregon. He has desired to locate in Oregon for some time and may ere long return from there wearing an Oregon boot.

A REPUBLICAN reporter had known of the defalcation since Thursday, and inquiries by telephone Friday and yesterday were the first hint that the trustees of Selma received in regard to De Lashmutt's crime.

Yesterday afternoon a meeting of the city trustees was called for 7 o'clock last evening. C. Bachtold, Thomas Brewer, J. B. Sturgis, and D. S. Snodgrass were present at the meeting. They discussed the situation and upon investigation found that the books were in such a condition that the Marshal's shortage could not be exactly ascertained. All that could be learned from a hasty inspection of the books was that the amount would be between $150 and $600.

The Marshal has not turned in a full amount of collections for two or three quarters. This gave him an opportunity for securing several hundred dollars, as the collections amount to about $300 a quarter. It was decided to hastily expert the books, and Clerk Aiken and D. S. Snodgrass were appointed for that purpose. They will try to arrive at the shortage tomorrow. No warrant will be issued for the fugitive's arrest until this is ascertained. M. Vincent and J. M. Harris are bondsmen for the missing marshal.

DeLashmutt left Selma Thursday night on the northbound train and was accompanied by two last women, who had been in the town but a few days.

A Surprise Party.

A pleasant surprise was given Miss Mae Lowery Friday evening at the residence of her sister, Mrs. E. L. McConnel, in honor of her birthday. The evening was spent in games and amusements. Refreshments were served. Those present were: Violet Burnside, Lillie Rose, Carrie Young, Leta and Lottie Lowery, Rose Nettleton, Edith Raymer, May Brinlger, Irene Miller, Guy Wofford, Willie Purvear, George Conow, Robert Sinington, Robert Conow, Herbert Bartram, Parker Lane, George Sinington, Harold Newman, Charlie Wilkinson, Hayden Zeigler, Charlie Lowery.

Masked Men Rob the Mail.

BOISE, Idaho, November 6.—News was received tonight that on Monday the mail between Meadows and Warrens was robbed by masked men. The registered letters were rifled. It is not known how much money was secured. Warrens is a flourishing mining town, and it is supposed that considerable currency is sent in the mail.

Cycling Record Broken.

BOSTON, Mass., November 6.—Frank B. Gorman of this city broke the American twenty-four hour cycle record by riding 342 miles between 4 p.m. Friday and the same hour today. The former record, 316 miles, was made by Davis of Cleveland.

THE J. U. J's.

A Social Club Organized in Scandinavian Colony.

This week has not been sterile of news by any means. The "J. U. J's." have contributed to the merriment of the nations, as Ambrose Bierce would say, and have effected an organization, against which the storms of ages may beat without effect. Jacob U. Johnson has been elected "president in perpetuity" of the very lusty society named not long since after his initials. There were other officers chosen, to wit: Vice president, Charles Olsen; secretary, Miss Della Olsen; recording secretary, Roy Thompson; treasurer, Mrs. Mary Olsen; sergeant-at-arms, William Kerr.

This society had a most enjoyable time last Sunday evening at the beautiful residence of Mrs. Olsen in the Scandinavian colony. After refreshments and games the organization, which had hitherto been temporary and empirical, was made permanent, and officers were elected, who will serve eternally without successors. Talk about civil service.

POLLY GLOT.

The Ione Reformatory Scandal.

NEVADA CITY, November 6.—Ex-Senator Preston, trustee of the Preston School of Industry tonight sent to Trustee Tyrrell a letter declining to act as requested with Tyrrell in instituting an investigation of the school's management and alleged abuses unless the investigation goes far enough to show what connection, if any, the recent changes in the administration, had to do with the troubles at the school. The latter is emphatic in tone and when read between the lines, hints at a condition of affairs which, if probed, may be productive of a sensation.

Joys of Inter-Collegiate Football.

PITTSBURG, November 6.—Five rather serious accidents occurred in football games in or near this city today. In the Pittsburg-Duquesne club and country club game, Floyd Rose, Duquesne's quarterback, had his shoulder dislocated. Robert Crane of the Bellefield Athletic team suffered concussion of the brain and is now lying in a precarious condition. William Walker of the Pittsburg College team had his right clavicle fractured. George Luzelle of the New Haven, Pa., eleven, had his collar-bone broken, and Bert Ritchie was hurt internally and had to be carried from the field. He is probably fatally wounded.

Will German Steal It?

BALTIMORE, November 6.—The Board of Supervisors of election of Somerset county today found that 495 ballots lacked the signatures of the judges, as required by law. The board adjourned until Monday, when the attorney-general is expected to be present. If the courts declare these ballots illegal it may affect the result in several counties.

BAND OF THIEVES

Many Horses Stolen From Fresno.

Hi Schell Placed Under Arrest. Suspected of Being the Leader.

Hi Schell is in the county jail charged with grand larceny. He is implicated in the stealing of certain horses from Fresno and vicinity, and if the surmises of the officers are correct they have the ring leader of a daring band of thieves. Constable Shaw and his deputies, Will Henry and Con Angel, as well as Deputy Sheriffs L. P. Timmins and P. F. Peck, have all been quietly investigating the mysterious disappearance of so many horses during the past three months and evidence has been secured of the existence of a band of horse thieves, who work in an industrious and cunning manner.

Mr. Schell has a pasture on the Laguna de Tache grant south of here, and this has served as a rendezvous and resting place while the thieves were running the horses out of the county. The horses were taken from the pasture when convenient and sold in towns in the southern part of the valley. If the officers were too alert for the disposal of a stolen animal in this valley, it was driven across the coast mountains and sold. At one time Schell had sixteen horses in this pasture, and it is suspected that most of them were stolen.

Deputy Constable Will Henry returned from Bakersfield on last night's train and his investigations down there confirm the suspicions in regard to Schell. Three horses stolen from this county were found there and they were sold in Bakersfield about October 1st by Schell. It was discovered that another horse had also been sold and it is likely that the animal is one that had been stolen.

F. B. Stockdale and William Weekly have sworn to complaints against Schell charging him with stealing two horses belonging to them. Stockdale secured his horse in Bakersfield.

MANY CHANGES

December Wheat Goes Up and Down.

Impossible to Make Two Consecutive Trades at the Same Price.

CHICAGO, November 6.—Wheat was strong at the opening. The Liverpool market was not a sharer to the full extent in the previous day's weakness. Paris sent bullish advices; the week's clearances from all Atlantic ports were 5,575,216 bushels and Liverpool bids for Chicago No. 2 spring wheat were 3d per quarter (3¼c a bushel) higher than those of the day before.

The most bullish item of the early news, however, was the Ohio November crop report making the condition of wheat in that state 61 and the reduction in acreage 17 per cent.

This report was made up before the recent rains but had marked effect nevertheless, and was the main factor in the opening advance and the gain which followed. The news was not all bullish. The domestic receipts were no less liberal than before.

Chicago had 139 cars compared with 223 a year ago. Minneapolis and Duluth reported 1118 cars against 775 last year. The total receipts at the principal western markets were 1,181,834 bushels against 842,764 bushels for the corresponding day of 1896.

That would perhaps have some effect in checking the desire to buy had the shorts not been oversold, as was evidently the case. Continental cables quoted declines of 12½ centimes at Antwerp, and from 10 to 20 centimes at Paris, besides 5 centimes decline in flour at the latter place.

Minneapolis wired that 2000 cars of wheat were looked for as the receipts there on Monday, but neither did that benefit the shorts to any appreciable extent. The increase in receipts this week over last at Minneapolis and Duluth numbered 540 carloads. The Atlantic port exports amounted in wheat and flour to 601,000 bushels.

A New York dispatch said a cargo of wheat had been worked for Vienna and Hamburg and another New York message reported 25 boat loads taken chiefly for France. It was also reported that 150 loads of Manitoba wheat had been worked for the United Kingdom.

The trading was light and only spasmodically active. December was not much heard of, but its value had many changes. It seemed impossible to make two consecutive trades in December at the same price. It ranged from 93⅜c to 93⅞c and closed ⅝c higher at 94c. May started ⅛c higher at from 91⅛c to 91⅜c, gradually improving to 91⅝c and from that down again to 91⅛c and 91⅜c. Afterwards it rose to 92⅛c and closed at 91⅞c and 91⅝c.

Corn was firm on a narrow amount of trading. The market was influenced by the unexpected strength of cables and by yesterday's large export sales, New York reporting 800,000 bushels sold.

This was a gain and caused active trade in oats. There was quite influential selling through the session, particularly by elevator people, but all offerings were taken and the market ruled strong from the start.

HAYS-MADSEN.

Marriage of a Popular Couple at Easton.

On Sunday evening, at their future home near Easton, Judson Hays and Miss Tilda Madsen were united in marriage. The groom is the son of D. J. Hays of Cherry avenue and is well and favorably known. The bride is the daughter of P. Madsen of East avenue, and is a favorite among her many friends. The families of both bride and groom have lived in Washington colony for many years and the young couple have the best wishes of a host of friends.

The house was tastefully decorated with chrysanthemums and pepper boughs. The wedding bell, made of white chrysanthemums, hung just at the entrance to the parlor. With Miss Edith Hays and Mr. Nathan Hays as attendants, the contracting parties entered the parlor at 9 o'clock and were married in the presence of a large number of assembled relatives and friends, Rev. H. O. Shelton officiating. After congratulations, an elegant wedding dinner was served, and it was late when the guests departed, wishing the happy couple a long and prosperous life.

Those present were: Mr. and Mrs. D. J. Hays, Mr. and Mrs. P. Madsen, Mr. and Mrs. Domkier, Mr. and Mrs. N. Hays, Mr. and Mrs. Kindig, and Mr. and Mrs. C. STREAMS OF GOLD.

Hanford Men to Dredge Alaskan Rivers.

Expect to Get Barrels of the Yellow Metal Next Spring.

Richard Mills, treasurer of the Alaska Dredging and Development Company, recently organized in Hanford, was in Fresno yesterday. He is quite enthusiastic over the prospects of dredging the rivers in Alaska and thinks that the stockholders in the company will make barrels of money. Mr. Mills said:

"We have organized a Klondyke company in Hanford capitalized at $150,000. The shares are going rapidly and such men as Clarence Berry indorse the plan. Mr. Berry and his father have each subscribed for $1000 worth of shares.

"Our plan is to dredge the rivers and secure the fine gold that we think is to be found there in great quantities. We have a newly invented dredger which has a capacity of lifting and working 5000 tons of dirt in twenty-four hours. Ten men constitute the crew required to run the dredger during the whole twenty-four hours. The fuel necessary to run this dredger can be secured at a low cost, and nothing remains in the way of securing untold wealth from the rivers and swamps in Alaska.

"The dredger will be especially adapted to the work and constructed according to designs by W. A. Shahan, the patentee, and a member of the company. The dredge is of the hydraulic type and is a combination of centrifugal pump, separating chamber, hydraulic jet, and ornatic feed and pneumatic electric sight tube.

"The officers of the new company are well known citizens of Hanford. G. W. Follett, county assessor, is president; W. A. Shahan, vice president; D. R. Cameron, secretary, and myself treasurer.

"The company will commence operations in Alaska as early as possible after the ice breaks on the Yukon next spring."

A POLITICAL CONSPIRACY.

Democratic Leaders Making Terms With the Bosses.

From the Tulare Register.

Another link of evidence in the chain which binds the fortunes of Governor Jim Budd to those of the most reprehensible political montebanks that ever cursed any country is now visible to public inspection. Stuffer Sternberg has been pardoned by the governor and is once more in the hands of his friends. Sternberg stuffed the Baldwin hotel and other places with dummies, was prosecuted and sent to Folsom, chiefly at the instance of the *Examiner*, which is now as mum as mum can be, although it was preeminently its fight that convicted Sternberg. What does all this signify? It signifies that there is a conspiracy to a second time steal the state of California from the lawful majority and deliver it over to Budd, Maguire and the *Examiner*, of the Democracy, and Kelly and Mahoney, who are Republicans only that they may betray the party to any set of scalawags who will make it to their interest to perform that service. It is an open secret that Jim Budd owes his election to Kelly and Mahoney, and if Satan is not confounded Mahoney will owe his election to the same species of brigandage, and then the field will be open for Jim Budd to go to the United States senate. A great conspiracy has been concocted. Will the people see it in time?

A PECULIAR REMEDY.

Something About the New Discovery for Curing Dyspepsia.

The Rev. F. I. Bell, a highly esteemed minister residing in Weedsport, Cayuga county, N. Y., in a recent letter writes as follows: "There has never been anything that I have taken that has relieved the dyspepsia from which I have suffered for ten years except the new remedy called Stuart's Dyspepsia Tablets. Since taking them I have had no distress at all after eating and again after long years CAN SLEEP WELL."—Rev. F. I. Bell, Weedsport, N. Y., formerly Idalia, Colo.

Stuart's Dyspepsia Tablets is a remarkable remedy, not only because it is a certain cure for all forms of indigestion, but because it seems to act as thoroughly in old chronic cases of dyspepsia as well as in mild attacks of indigestion or billiousness. A person has dyspepsia simply because the stomach is *overworked*; all it wants is a harmless, vegetable remedy to digest the food and thus give it the much needed *rest*.

This is the secret of the success of this peculiar remedy. No matter how weak or how much disordered the digestion may be, Stuart's Dyspepsia Tablets *will digest the food whether the stomach works or not*. New life and energy is given not only to the stomach, but to every organ and nerve in the body. A trial of this splendid medicine will convince the most skeptical that dyspepsia and all stomach troubles *can be cured*. The tablets are prepared by the Stuart Chemical Co. of Marshall, Mich., but so popular has the remedy become that Stuart's Dyspepsia Tablets can now be obtained at any drug store at 50 cents per package. Send for book on stomach diseases free.

CONSIGNING OF RAISINS

Farmers' Club Severely Condemns It.

Appointment of Inspectors Urged.

To Stop the Shipping of Bad Goods—County Refunding Proposition.

The Farmers' Club held a well attended meeting yesterday afternoon at its headquarters on I street. President W. H. Hodgkin occupied the chair. The executive committee first had a brief session, in which Messrs. G. L. Warlow, Dr. Eshleman and W. F. Rowell were appointed a committee to go before the Board of Supervisors and urge that the proposition of refunding the county's bonded indebtedness be laid on the table till next fall, when it can be submitted to the voters of the county at the general election. A special election would cost $3000, and this amount would be saved by having the question voted on at the election next November.

The Farmers' Club proper then convened, and after the reading of the minutes of the previous meeting, Alex Gordon read the following report from the raisin committee, of which he is chairman:

RAISIN REPORT.

"According to your request we beg leave to submit the following report on the raisin situation, but for the want of sufficient time, it will be possible for us to consider at this writing but a few of the many conditions that affect this great industry.

"At present we desire to call attention to some damaging methods, which, according to reliable information, are at present being practiced by a few raisin growers in this county, in reference to the packing and marketing of their crops. It is no doubt beyond question that the system of marketing the raisin product of the valley on a commission basis has met, after three or four years' experience, with almost universal condemnation. Indeed, so uncertain were the chances for profitable returns that many instances are of record where the net proceeds realized by the growers were insufficient to pay the expenses for curing their crops, and were sometimes nothing at all.

"But, during the seasons of 1896 and 1897, the original plan of buying raisins for cash in the sweatbox was again adopted, and immediately the light of better times again began to dawn on the producers, when it became apparent that once more a fair price could be realized for our valuable product.

A RUINOUS SYSTEM.

"But to the great surprise of your committee some of these same raisin growers that once howled so loudly against the commission men, and who could have sold their raisins this season at from 3 to 3½ cents per pound, cash in the sweatbox, are at this very time committing the same grave error themselves. According to our information, they are having their raisins packed at certain packing houses for so much per ton, and then actually permitting them to be consigned to eastern points, and left in the hands of agents to sell who have no other interest in the goods under heaven except to get back the money they have advanced on them and their commissions for selling the same.

"That such a thing should be done by any grower of this county, after past experience, is something beyond our comprehension, more especially in view of the fact that the bankers of Fresno city have offered to advance to the growers all the money necessary for their present wants, so soon as their raisins were in the warehouses where they could be insured.

It certainly requires but an ounce of brains to understand that if the growers themselves engage in consigning their raisins East that the much longed-for system of cash in the sweat box, which is now in active operation, will vanish as the morning dew; for what sensible packer will chance an investment on a game of that kind?

PEDDLING RAISINS CONDEMNED.

"We, your committee, also deplore the system of peddling raisins around town by the wagon-load from packing-house to packing-house, without any previous arrangements having been made for their disposition. Constantly cases come under our observation where growers that sell their raisins at home realize far better results than can possibly be done under the peddling system.

"We are further informed that at some packing-houses where job work is being done that raisins are being received and packed in a very bad condition. Only loss and disappointment to the owners can result, as well as giving a 'black eye' to our product generally.

"We call to mind that some four years ago a committee of raisin growers of this county prepared a bill and it was passed by the legislature at Sacramento, but afterwards vetoed by Governor Markham. It was the purpose of said bill to have inspectors appointed by the authority of law, whosedutv it would be to inspect and prevent the exporting of rotten or otherwise defective raisins out of the state of California, unless they were branded as such.

PACKING POOR RAISINS.

"We believe that the Fresno County Farmers' Club should make an earnest effort to secure the passage of a similar law at the next session of the legislature. Something should be done immediately along that line in order that the good reputation of our raisin product may be kept up to a proper standard.

"We, your committee, do not desire to interfere with the individual rights of anyone, nor do we in this report deem it prudent to mention names, but we believe that any mismanagement that affects an industry of such magnitude as the one in question, should receive our notice and severe censure. We sincerely trust that the above evils will be corrected before it is too late. Respectfully submitted, ALEX GORDON,

"Chairman of the Raisin Committee."

On motion of John S. Dore the report was adopted. He explained that he believed it best to leave to the judgment of the committee the question of whether or not to give names of persons who are leading in the movement so injurious to the raisin business.

Alex Gordon, who prepared the committee's report, stated that while some growers were consigning it was not going on as extensively as had been supposed a week ago. Yet the movement as it is, he said, is serious enough. As to the poor quality of raisins being shipped East, Mr. Gordon cited instances of where the authority of an inspector should certainly have been exercised. The goods were boxed and branded as raisins of good quality, however, and sent to the eastern consumer. Such a practice results in much injury to the industry, for the consumers will not buy any more of the product for fear of getting damaged goods.

PRESERVING FRUITS.

Mrs. J. S. Dore then read a paper on "Preserving of California Fruits." It was well written, brief and to the point, and it provoked a very interesting discussion after the lady had finished reading it.

The following is a copy of Mrs. Dore's paper:

"In my childhood home there were but three ways of preserving fruits beyond their natural limit in the fresh state, namely, by drying, in sauce, and in preserves. The first was done by paring, quarting, coring, stringing and poling; the second by boiling down the fruit juices, and adding the fruit, for sauce; and the third by the pound for pound process. The automatic paring, coring and slicing machines that are so labor-saving were not then invented. The self-sealing process of preserving fruit, which enables us to secure large quantities with less labor and expense, was then unknown.

"About thirty years ago, soon after I was married, Mrs. King, a neighbor of mine, visited near Columbus, Ohio, and brought home with her fruit in glass jars sealed up. It was beautiful, and it was a new and novel way of keeping fruit. Of course, we were curious to know how it was done, and she told a few of her particular friends, in a general way.

"When I first came to the state of California in 1884, I visited the Mechanics' Fair held in San Francisco, and while going through the pavilion looking at the many wonderful things on exhibition I kept in mind that I was looking for labor-saving as well as labor-easting appliances for woman's work, for I was beginning house-keeping anew in this strange and wonderful country. I saw while there what was called the 'Family Cannery.' I examined it with care for I had been canning fruit for years by putting it into cans of kettles to cook, and when cooked to a shapeless mass put it into jars or tins.

"This 'cannery' I will describe as well as I can remember it, the principle of which I have only applied. It was a large tin vessel similar to a wash boiler with false bottom, with perforations to let the steam through and indentations to hold the jars (they used Mason jars), about six inches from the bottom. This space was filled with water which when heated cooked the fruit by steam.

"The agent for these canneries impressed upon my mind the fact that preparing the fruit and filling the jars could be done before I built a fire, and also that the fruit would retain its shape. I was much pleased with this, and decided I would try this method when I had fruit to can.

"In the summer of 1885, when the fruit commenced ripening, I remembered my plans, which I still follow. I take my wash boiler and have a rack made of stripe of wood upon which to put jars, about four inches high. I prepare my fruit, fill my jars, put the rubber rings on the jars, put cold water into the boiler, and covering the boiler tightly make a fire.

"I put sugar and water into a kettle and placed it on the stove, to make as heavy a syrup as I wanted. I had it boiling when my fruit was ready to be taken out of the boiler. The time varies according to the fruit. I use a silver fork. If it pierces the fruit easily, it is ready to be taken out and sealed up. I place a table near the stove, and see that the can covers and fasteners are all ready, and that the doors and windows are closed to prevent the cool air from striking the jars, for there is great danger of their breaking if it does.

"I take out four jars at a time, cover the boiler over again and then fill them with syrup that I have taken out, let them settle a few moments and fill again, then put on covers and fasteners and put them away, then take out the rest and fill and seal up in the same manner. My jars of fruit were things of beauty and joy as long as they lasted. Since I was successful with a small sized boiler, I thought I would enlarge it, so I measured my range and had a boiler of heavy tin made that would hold nineteen one-quart jars or eleven two-quart jars. Canning fruit has no terrors for me since I have adopted this method.

"Be sure that your rubber rings are good and fit the tops of the jars snugly to insure that your fruit will keep well. I buy new rings every year. When I want to use my fruit I open my jars an hour or more before placing on the table for use.

"The practice of sulphuring fruit before drying, renders it, I think, almost unfit for use, though it is very beautiful to look at. Sometimes we have to use it, but how to render it fit for use is the next question.

"If the fruit is quite dry, as it gets by standing, I soak it in warm water for a few minutes, then wash it thoroughly in a number of waters until I am satisfied it is clean and free from grit, then cover the fruit with warm water and set it on the back of the range where it will simmer for an hour, then turn that water off and put more on, let it cook a little while and add sugar to sweeten to suit my taste, cook until soft and I find that I have very palatable fruit."

The discussion that followed was principally regarding the sulphuring of fruit. Conflicting ideas were entertained as to this.

As there always has to be a leader, a progressive, energetic pusher ahead, we have taken that enviable and prominent position in the mercantile business of Fresno.

We have plenty of followers—lots of them—but our pace is too rapid, our strides just a little bit too big for the rest of them, and one by one they are dropping farther into the rear.

No enterprise ever had greater encouragement; no community ever had a more perfect mercantile establishment than this. Success hasn't turned our heads, only prodded us on, kept us striving to improve our stock and get our prices down to a point where none can match us.

Grape raisins will bring good prices before the end of the season.

THE Farmers' Club gives the supervisors good advice when it suggests that they go slow in the refunding matter.

THE few growers who have consigned their raisins are not the only ones who have resorted to that reprehensible system, as the future will develop. The strange feature of it is that anybody could be so foolish.

Hanford *Sentinel*: "The FRESNO REPUBLICAN, the best interior daily in California, has enlarged to an eight-page paper of seven columns to the page, in order to handle the patronage that is tendered its columns. We are pleased to see so good a paper prosper."

THE things which militate most against the raisin market at the present time are consignments and second crop raisins. There should be none of either. Not a ton of raisins should be consigned nor should any second crop grapes be made into inferior raisins. The latter should go to the wineries and distilleries.

ATTENTION is called to a new department which will be found in another column of this paper under the head of "Religious Opinions." We believe it will be welcomed by all who are interested in current religious thought. In this department will appear the views of some of the most intellectual men of the country and of the age.

THE Santa Cruz *Sentinel* says that "counterfeiters are making silver dollars that contain more silver than the government dollar," and then asks: "Is this a crime?" Would there be any saving grace in the fact that a counterfeit bank note contained more paper than the genuine article? Just try it and see.

THE COLONEL'S CONVERSION.

Our Democratic friends have the virtue of being easily made happy, as evidenced by the chorus of jubilation heard in the camp over the alleged conversion of Colonel Henry Watterson to the doctrines promulgated by the Chicago convention. In this connection it is interesting to note exactly the sort of convert that the Colonel is, which may best be done by quoting his own words as recorded in the editorial columns of the *Courier-Journal*. These are the joyous words in which Colonel Watterson announces his change (?) of heart:

The issue, as it has been made and fought out, was clear and explicit. No effort was wanting to maintain it. Nobody could by any possibility be mistaken about it. We may regret the verdict, but we accept it. We shall make no further effort to direct the party course or counsels, or to share in any of the responsibilities of party leadership, having done our best, according to our conscience and belief, to divert our political associate from a policy and procedure the end of which no man can now foresee and the result of which we very much fear, both as to the welfare of the country and of the party. But we are Democrats, not Republicans, and nailing our flag to the masthead of honest money, free trade and home rule, we shall, in the character of a private soldier in the ranks, contribute whatever we are able to the ascertainment and vindication of the truth.

In brief, Colonel Watterson has been licked and submits to the superior force that inflicted the chastisement. But not for a moment does he admit that he has been wrong and that the new Democracy is in the right; to the contrary he renounces any and all responsibility for the policy of the party, which he believes endangers the welfare of the country as well as the party, and so declares in the plainest terms. If this be conversion, then Colonel Watterson is a convert. But what must be thought of a conversion that is wrought by the logic alone of superior numbers, and of the convert who predicts disaster for the forces that have overpowered him? If there is cause for rejoicing in such a conversion, let the trumpet continue to sound and the big bass drum to boom the joyful tidings.

GUNS FOR PUBLIC BUILDINGS.

The trip of General Miles to Europe has not been an unprofitable one. His brain is teeming with brilliant ideas suggested by what he saw across the waters while inspecting the armies of the different countries over there. One of the most brilliant of these ideas has just been put into execution. The general has had gatling guns mounted on the new treasury building at Washington. When asked for his reasons for doing this the general said:

While I was in Constantinople the attacks on the Turkish bank in that city were related to me and brought back to me the necessity for means of defense of the public institutions of the United States. Gatling guns could be placed where they would be available at a moment's notice.

Those Turks are a bad lot, we know, and they might take a notion to come over here and try to loot the treasury, so the General's plan is no doubt a good one. But we regret that "he does not believe that there is any necessity to fortify postoffice or other federal structures except those in which there are large sums of government money." We were thinking before we came to that sentence what an ornament a gatling gun or even a howitzer would be to the Fresno postoffice, with what affectionate pride Postmaster Hedrick would regard the gun and with what feelings of joy he would load it and bring it to bear on the chronic kicker.

But, jesting aside, our opinion is that General Miles is lacking in good sense. Of course the reason for mounting guns on public buildings is to discourage attacks upon them by mobs or to repulse them should any be attempted. The General's action is an insult to the American people and savors of the methods employed by the unstable European governments. We venture to assert that it has never occurred to a mob in this country to attack any public building for the purpose of looting it, and it is much to be doubted if our people will ever become "Europeanized" to that degree. General Miles ought to be kept at home. He is growing old and foolish.

THERE is talk of a reunion of the veterans who wore the blue and the gray in the civil war, to be held at Visalia during the coming winter, the participants to be residents of the counties of Tulare, Fresno, Kings and Kern. It is a good idea, and should be carried out. The survivors of that great struggle, which terminated so fortunately for the nation, are all American citizens and all imbued in this day and age with the common purpose to foster and sustain the principles of a free and united government. It is well that hands should clasp in the fraternity of citizenship over the buried animosities of the fratricidal struggle; the glory of its achievements will shine the more brightly on that account.

We can see nothing but victory ahead for the Democracy. All the powers of evil cannot wrest New York or Kentucky's vote from the Democratic candidate in 1900.—*Stockton Mail.*

There may be something in the idea that the devil and all hell cannot prevail against Tammany; also that the hosts of sin cannot be induced to battle against their best friends.

Mr. Delmas is often compared to Napoleon, a comparison he does not dislike. He is about Napoleon's size, looks somewhat like him, and has the clear Napoleon mind.—*Santa Cruz Sentinel.*

Also the Napoleonic disregard for domestic honor.

RANDOM REMARKS.

"Political Morality Needed" is the head on exchange puts over one of its editorials. It is, but the man who needs it doesn't want it.

A Nebraska farmer "lambasted" his two sons last Thursday because they voted the Republican ticket. The Republican pays whose sons vote the Democratic ticket lets off steam in a different way. He goes out behind the barn and kicks himself.

A Parisian doctor says that laughter is a beneficial alveolar stimulus. The information is valuable, no doubt, but most of us will have to look into a dictionary to see what an alveolus is before we decide to stimulate it; and even then we might come to the conclusion that a liquid stimulant would be better.

An English statistician states that the number of young Englishmen who embrace their sweethearts at the moment when they are inviting them to become their wives amounts to 35 per cent. On the other hand 60 per cent of the men in love kiss their sweethearts on the lips at the critical moment, while 4 per cent content themselves with kissing the hands. Sixty per cent kiss without embracing! How in thunder do they do it?

Miss Maud Gonne, the "Irish Joan of Arc," who has come to this country to enlist American sympathy in the cause of Ireland, was interviewed in New York the other day. Among other things she told the interviewer that her countrymen were preparing for an uprising and were simply awaiting the opportunity. She declared that when the time came around men would not be lacking. Let the English government close up Scotland Yard. It can get all the information it wants concerning the plans of the Irish agitators from Miss Gonne's interviews in this country.

An Incomparable Souvenir.

From the Modesto Herald.

We have received a copy of "Imperial Fresno," the FRESNO REPUBLICAN'S souvenir. It's an important work, this souvenir, the product in a mechanical as well as mental way of Fresno talent, and would ornament the center table of any parlor in the land. As an advertisement of Fresno, the county, its industries and resources, it may honestly be said to be incomparable. Fresnans should be liberal purchasers of this work and should circulate it as liberally.

THE SEQUOIA.

C. W. Doyle in Santa Cruz Surf.

See where it stands in undiminished splendor
The giant sentinel of Jan's retreat;
Man doffs before it humbly, fain to render
Homage, and lay the reverence at its feet.
Sacrilegious, no hacking dares tremendous,
Declares God's glory like this tree stupendous.

Man's labors vanish; temple, palace, tumble;
And bronze and marble perish and decay;
The greatest monuments e'er reared shall crumble,
Ere this proud tree shall bend before Time's sway.
The rosy morn its royal crest can greet,
While darkness spreads her couch about its feet.

The fairy myths of Greece that figured Naiad,
Housed airy Echo, gave the Stars a name,
Apportioned to each Oak its proper Dryad,
Could find for this no genius of like fame;
God's angels, guided, Adrliel and their kin,
Alone might dwell such noble lanes within.

THE MAN ABOUT TOWN

A Reverend "Rises to Remark."

Vigorously Defends the Mother-in-Law.

Some Early Candidates for Office. The Slot Machines Once More.

EDITOR REPUBLICAN:—In the editorial column of the REPUBLICAN of June 1, 1837, occurred the following paragraph:

"Why is a night in northern Greenland like the visit of a mother-in-law? Because it lasts six months."

As my mother-in-law belongs to this abandoned class whose stay with us you lay made with 325 strokes of the pen, I shall speak for the class whom I know to be slandered. Far be it from me to maintain that all mothers-in-law are up to the standard which we have raised and proclaim. I, as a several-times married man, have kept some mothers-in-law in my house undisciplined, because I thought it better to bear with them, to be gentle in the hope of yet leading them into better ways. It may be that if a census man were sent around to investigate, some of them would be found to make a practice of staying with their children six months, but surely we would not be more likely to find these sort of mothers-in-law than the kind that stay only five months. To assert otherwise is to make a statement that is false as sin.

You show yourself, Mr. Editor, to be lamentably ignorant of the nature of mothers-in-law—this is the only uncharitable construction to place on your cruel insinuation. I challenge you to a test of your swaggering assertion! Wow! I will furnish you a list of my ex-mothers-in-law and the mothers-in-law of other members of my family and will personally assist you in examining each case, according to the best light we can have, and if we find more testimony to their visiting six months than to their visiting but five months, I will publicly apologize to you for what I have said in this screed and will give you $10,000 (my salary is only $600 per annum, but my credit's good) for the time given by you to the investigation. But if facts do not justify your statement then you must publicly announce that you have misrepresented, slandered, libeled a large element of very decent people considered as a whole—not a half, or three-quarters.

Defamers of mothers-in-law have too long gone unchecked and unpunished, and it is time to put an end to the outrageous flings at this sacred institution. My opinion is that your ——— saffron journal wrote that paragraph merely to cause a snicker in the Livingston mansion. There, now, that's as forcible a remark as a Christian gentleman can utter and continue to be a gentlemanly Christian. Possibly you made that attack on mothers-in-law not because it voiced your deepest sense of truth, but because it didn't voice your deepest sense of untruth.

I grant you the right to private conviction and also its public expression, only I don't. In the name of the rights of my seventeen children, to the support of which five generous, pious mothers-in-law are contributing, I object to any man misrepresenting the length of their visits. No, Mr. Editor, if you cannot conscientiously stand up for the mothers-in-law, then stand up for what pleases you most; but know, sir, that you may not, you must not, you should not, you orter not, you will not misrepresent them!!! I challenge you, sirr, to gather the evidence. "Put up or shut up!" as that master of elegant English, Addison, said. I have no use for a Republican paper anyhow. I am a Democrat and received my education in Tierra del Fuego.

Hoping that your mother-in-law will stay with you a year, I subscribe myself,

REV. JAY BLACK SMYTHE.

It seems that the San Francisco supervisors have at last become alive to the dangers of the nickel-in-the-slot machines and have decided to get more revenue out of them. At the present time the license tax on these corrupters of youth is $3 a quarter, and the income is said to be $12,000 a year. It is intended to increase the license to $10 a quarter. Why not increase it to $50 a quarter, as in Fresno, or, better yet, why not abolish the machines altogether? They are certainly percentage games and come under the law against illegal gambling. Any town whose officials have backbones that are made of something stiffer than india rubber ought to have no trouble in getting rid of these infernal nuisances. The evil perpetrated by these gambling devices is pathetically set forth in a letter from a mother to the San Francisco *Post*, from which I reproduce the following paragraphs:

"Through them inventions of the evil one I have lost my son. He was a bright, happy and honest lad, enjoying a good position, with every chance of advancement and success in life till he fell a victim to that terrible temptation. He gambled for cigars and drinks, and, when intoxicated, used his employer's money. Now he is a criminal and a fugitive from justice.

"I hope the mothers of San Francisco will recognize the great evil that is wrecking so many of our boys and combine to battle against it. The women have it in their power to stop the awful vice that threatens their homes if they will but organize and crusade against it. With the support of the pulpit, the press and every decent element, they cannot but prevail."

I have a curious document before me. It is a certificate of baptism testifying to the important fact that on March 25, 1778, Maria Sally Bieseker was baptized in the Lutheran church in Mount Bethel township, Northampton county, Pennsylvania. The certificate is in the German language, and its peculiar diction would give it an ancient flavor even if the paper on which it is printed and written were not faded and discolored. The most remarkable thing about the document is the illuminated border. The things depicted thereon and the colors and manner in which they are executed would make Aubrey Beardsley envious could he see them. At the very top is a mysterious symbol that might be mistaken for almost anything from a curry-comb to a Roman galley. On each side of this extraordinary sign is a parrot, whose connection with the rite of baptism I leave to the church people to explain. Beneath each bird is a representation of Old Sol and in each lower corner of the certificate is a plant which my ignorance of botany makes it impossible for me to classify. The interesting document is the property of Attorney J. G. Rhodes, and the baby baptized way back in 1778 was Mr. Rhodes' grandmother on the paternal side.

Far away as the campaign of 1898 is, candidates for county offices are already beginning to bob up on the Democratic side. Bob Harlan, the big wheat grower of the West Side, is said to have an eye on the shrievalty, and Jim Kerr of Coalinga is credited with the ambition to be the next county recorder. John D. Collins of Dry Creek, it is said, also thinks he is in every way fitted to perform the duties of the sheriff's office. W. D. Crichton is being mentioned for district attorney, but his law practice has assumed such proportions of late that it is doubtful if he could be induced to abandon it and run for the office. Everything points to the Democrats of this county going it alone next year. The great majority of them denounce fusion as a sham and believe the time has come to break away from Populistic influences.

I was at the Charity Ball last Friday night for a few minutes. I got there just in time to see a new dance, rather a new "figure." I think they were dancing the prancers, or something like that, and this figure was part of the dance. The members of the set I was watching formed a circle by clasping hands and whirled around and around. Suddenly one of the gentlemen let go the hand of the gentleman next to him, who, after a few revolutions, fell to the floor. It must have been very funny, for most of the members of the set laughed and I laughed consumedly myself. Even the gentleman who fell smiled, though it did seem rather a sickly smile from where I sat. This figure reminds me of a game in which I used to take part many, many years ago. It was called "cracking the whip," and we used to play it at school. I am really glad that this gentile game, in a somewhat modified form, has found its way into the list of amusements of the 400, but I regret that I could not stay long enough the other night to see one of the young ladies do that part of the figure, for I suppose each person in the set takes his or her turn at being toppled over.

A Little Joke on Dante Prince.

Some Good Advice to Raisin Men.

Should Oppose the Commission Men to the Last—Vile Officials.

I do not vouch for the truth of the following story; in fact, I would not be surprised if it were a base and malignant invention, but in some respects it seems to justify the telling. So here goes:

Dante Prince—our own Dante—came down to the city, a few weeks ago, from the vine-clad plains and orange groves of Fresno. While here he concluded to add to the festivity of the occasion by taking a young lady friend to the theater. So he made due arrangements by mail and awaited the pleasant evening.

It came, and Dante, having bought a bran new necktie for the event, arrayed himself in it, together with several other things, and sought the abode of her who awaited him.

In Fresno, as you are aware, are few flats and few doors down stairs that are opened by pulling a lever, or a string, or something, up stairs. Hence I do not blame Mr. Prince, and I think the young lady should not have done so.

He approached her door—oh, happy door, so often to serve as the frame of so much beauty! He rang the bell. After a moment the door swung open a little way. Mr. Prince looked in; there was nobody in sight. Said he to himself:

"The last person who came out here didn't catch the door."

Then he carefully closed the door, and again rang the bell. Again the door opened, and again there was nobody visible within: Said Mr. Prince, as he reached in and closed it:

"That door must have a remarkably poor catch. I thought I fastened it before."

Again he rang the bell, again the door opened and again nobody was there.

"I should think they would be afraid of burglars," said Mr. Prince, as he closed it. "If I had a door with such a blamed miserable catch on it I would buy a new catch and give the old one to the poor. The poor don't need to fear burglars, you know."

Five times he rang the bell; five times the door opened, and five times he closed it. Then he departed. In fifteen minutes he returned and rang the bell and closed the door three more times. Then he gave it up. He says he thought he heard somebody talking in the next house, but he was not sure.

Mr. Prince was very much pained, on the next day, to receive a chilly note from the young lady, in which she chided him severely for not keeping his engagement. He went right up to her house in order to explain, but all he did was to ring the bell and close the door four times. Then, not finding anybody at home, he left.

It was all explained to him afterward—how such doors are opened by somebody who pulls a dingus at the top of the stairs—but it was too late then, for the young lady had said, with tears, that she would never, never forgive such conduct.

In the long run this probably will make little difference with Mr. Prince, for he is all right, anyway, but it was a painful episode at the time, nevertheless.

In the beginning I said I feared this story was an invention and a falsehood. On the whole, I am more and more convinced that such is the case, and I ought to know, for I invented it myself.

* * *

So the commission dealers would again put their cinch on the raisin growers; they would again play that little game wherein they take the profits and the producers pay the bills. It is a nice little game—for them, and if the grower gets hungry, let him tighten his belt.

Are you going to let them do it, you farmers of the San Joaquin valley? Have you had so little experience along this line that you are ready to purchase more at the price which is asked?

Or would it not be better to struggle to the last and, if need be, go down struggling rather than to be starved into submission and finally go down, anyway, as hounds go down beneath their master's lash?

For this is what it means, and you know it. You must win in this struggle or expect the starvation process of past years. There were those among your number who are not there now—starved out. There are those among you now who will not be of you in a year or two more if the commission men handle your product, for they, too, will be starved out of home and property. How many of you before now have consigned raisins, to receive in return only a bill for the balance due *from you!* Do you want more of that kind of thing?

If not, stand united for fair prices. It is your only chance to live by and from your business. You must know this; experience has taught that, if it has taught nothing else. Stand united and win, if possible; but if it be not possible, go down as *men*, anyway. The commission system promises you nothing save failure; it has given you little or nothing in the past. Do you know of any way to attain anything worse? There is but one hope for you; accept it and fight together for it.

Stand up like men. They'd whip you all;
To win red gold they'd sell you;
To gain their end they'd hold you thrall;
Nor heed what grief befel you.
You till the ground; they take the gain!
Now that's a fine adjustment!
They win success; you sup with pain -
For this your hope and trust went.

There were whose vine-clad acres gave
Their promise to the tiller.
Where are they now? Past power to save;
The "system" proved their miller.
It ground them all; it ground them fine,
Or high or low their station;
It ground so blithely, I opine,
They now are past salvation.

Then stand like men! No hope is there
Except in bravest battle.
Ye may as men fight strong and fair,
Or e'en go down as cattle.
There is a knavery no laws note;
By statutes it's unheeded,
But you must grasp it by the throat
Or be its bondsmen deeded.

You read the San Francisco papers. You know how Supervisor Haskins, drunk and disorderly, struck an old and inoffensive man. You know, too, that there was not among the prosecuting attorneys of the San Francisco police courts a single one with manhood enough to prosecute this cur of a supervisor. The breed of little yellow dogs stood in with the big yellow dog.

These things you know, but have you paused to think of the insufferable disgrace of the people who are represented by such political scalawags? If ours is a representative system, and if such animate things are our representatives, what are we? I leave you to grapple with that question. For my own part, I am ashamed to give it such answer as it deserves.

* * *

I did not say that all people would like the country better than the city. I merely said that if a person desires to maintain a sort of formal acquaintance with the Almighty he has a better show in the country. But that fact would not particularly affect some people.

A. J. WATERHOUSE.

WISDOM OF WISE MEN.

Never quit your hopes. Hope is often better than enjoyment. It is certainly a very pleasant and healthy passion. A hopeless person is deserted by himself, and he who forsakes himself is soon forsaken by his friends and fortune.

If you cannot be happy in one way, be in another; and this facility of disposition wants but little aid from philosophy, for health and good humor are almost the whole affair. Many run after felicity, like an absent minded man hunting for his hat while it is in his hand or on his head.

True happiness is a roadside flower, growing on the highway of usefulness.

The greatest man is he who chooses the right with invincible resolution; who resists the sorest temptations from within and without; who bears the heaviest burdens cheerfully; who is calmest in storms and most fearless under menace and frowns, and whose reliance on truth, on virtue, and on God is most unfaltering.

Friendship improves happiness and abates misery by doubling our joys and dividing our grief.

A friend that you buy with presents will betray you for greater ones.

Let friendship creep gently to a height; if it rush to it, it may soon run itself out of breath.

The next best thing to being in the right is frankly and manfully to acknowledge to being in the wrong.

The heart has no avenue so open as that of flattery, which, like some enchantment, lays all its guards asleep. He that reviles me may perhaps call me a fool; but he that flatters me, if I take not great heed, will make me one. The only coin that is most current among mankind is flattery, the only benefit of which is, that by hearing what we are not, we may learn what we ought to be.

Experience often charges high for her lessons, but they are invaluable.

Whatever parent gives his children good instructions, and sets them at the same time a bad example, may be considered as bringing them in one hand food, and in the other poison.

The best way to outwit an enemy is to return plain dealing for deceitful unrighteousness, and acts of kindness for injustice and cruelty.

THE PLACE TO GO.

No One Need Make a Mistake About That.

It is not the largest and showiest stores in any town that sell the best goods. Heavy expenses of rent and taxes all come out of the pocket of the customer. A larger percentage of profit or an inferior quality of goods is the only way the proprietor of such stores has of meeting the difficulty.

The Golden Rule Drug Store at 1730 Mariposa street is not conducted on these lines. It has done a large business and become a household word for years, simply because its patrons know that they do not pay two prices for one article, and that everything sold there is of the best quality. There is no drug store in town where prescriptions are dispensed more quickly, more efficiently, more economically or with purer drugs.

At the Golden Rule Drug Store an experienced physician with high diploma can be consulted at all hours.

The store carries a full stock of patent medicines, chemicals, toilet articles, surgical appliances, etc.

The celebrated French Ague Cure and German Bitter Tonic are to be procured only at the Golden Rule Drug Store, 1730 Mariposa street. *

FRESNO'S BIG RETAILERS.

A Great Business Skillfully Handled. Tomorrow's Sale.

It is a wonderful institution, the great modern department store, and careful, able, painstaking and untiring must be the men who stand at the head and manage the affairs of these grand products of nineteenth century civilization. Of these great institutions, Fresno may honestly boast of having one of the largest, most highly developed and best managed on the Pacific coast, the Kutner-Goldstein Co. The enormous business handled by this house, the ease and celerity with which it is done and the wonderful perfection of it all, even to the minutest detail, show that the managers have developed the science of business methods to the highest obtainable point. There are many things, understood by the proprietors themselves that tend to the success of this big institution. But one factor in their success, as seen by many observers, is their system of special sales whereby they keep goods moving in whatever department it may seem necessary by the simple process of making a heavy cut in prices for a certain number of days.

By consulting their advertisement on the first page of today's REPUBLICAN the reader will see that one of these sales (this time it is in household goods) is advertised to begin tomorrow, Monday, November 8th. If the reader is wise he will take advantage of this announcement and secure what goods he wants in this line while the sale lasts. *

RELIGIOUS OPINIONS

From Denominational Papers.

Value of the Religious Pilgrimage.

History Should Be Taught Impartially—Specialized and Generic Christians.

"Deeply as we owe to the youth of the land a sound education," says the *Interior* (Pres.) of Chicago, " more solemnly do we owe to them a just and impartial one. The whole history of the papacy is not told when we have read the life of Rodrigo Borgia, any more than the character of John Calvin is understood from the single incident of Servetus. In Puritan Salem the witch was put to death, and in Plymouth of the Pilgrims, protected. It is useless to deny that some of the laws of Connecticut were 'blue,' but is the mark of a bigot to make us forget the character of Connecticut was a distinct advance in the progress of liberty for a nation and a world? It is as vain to affirm that the federal theory of government lay as an axiom underneath the constitution as to deny that it follows as a corollary of the war. No individual, no sect, no party, has a monopoly of the truth, and no man is fit to teach at all who does not consider himself responsible to teach all aspects of it. The very first requisite in an instructor, be he called to occupy the desk or the pulpit, is fairmindedness, and too often it is the least gift he possesses. Given this, he may be trusted—and long after his errors are forgotten his scholarly spirit will be bringing forth the fruit in love."

"The importance of the religious pilgrimage to the culture of medieval Europe has been often pointed out," says the New York *Churchman*, "but we do do not think that enough stress is usually laid upon the importance to modern culture of the numerous gatherings, religious and other, that take the place with us of the old individual or collective pilgrimage. Such a gathering as that represented by the great convention of the Brotherhood of St. Andrew, which has just met at Buffalo, represents an impetus to culture in all parts of our land the value of which cannot be overestimated. Delegates came from far-away chapters who could not have taken such a trip on their own individual account, who would never otherwise have heard such distinguished strangers as Canon Gore speak and preach, or mixed with men from other towns and states, or seen a great city, or viewed the wonders of Niagara. These men have not only been broadened themselves, but will become radiating centers of broadening and refining influence at home to all their friends and relatives. Their one trip to Buffalo will mean far more to them than her three visits to Jerusalem did to Chaucer's wife of Bath, for the superstitious element has been eliminated from the modern pilgrimage and nothing but good may be expected from it."

"Cardinal Vaughan," says *The Living Church* (P. E.) of Chicago, "has recently been making another of his own peculiar contributions to the cause of Christian unity by representing the Anglican church as an instance of demoniacal possession. It is in attempting to explain the fact that that church seems confident of its claims to be a part of the Holy Catholic church, that he proposes this solution. Attention is drawn to the fact that this is an indictment of such persons as St. Cyprian of Carthage, St. Firmilian of Cæsarea, St. Chrysostom of Constantinople, St. Meletius of Antioch, and other primitive saints, who in their attitude towards the See of Rome were far from submitting their private judgment to the commands of him who now sets up the claim to be, in an exclusive sense, 'the vicar of Jesus Christ.' According to Cardinal Vaughan, these saints, whose names are, nevertheless, in the Roman calendar, must have been instigated by the devil. This position goes far beyond that of Newman, who acknowledged that the Church of England was a great bulwark against unbelief, or even that of Manning, who said that, as baptized persons, the members of the English church were subjects of divine grace. Roman theologians have held that even heretics and schismatics may be considered as belonging to the 'soul of the church.'"

"In the course of a recent sermon the Rev. Dr. Tucker, president of Dartmouth College, dwelt upon the distinction between the specialized and the generic Christian. The distinction," says the *Watchman* (Baptist) of Boston, "is an important one, fully warranted by the New Testament, and failure to recognize it has been the prolific cause of erroneous and fantastic conceptions of the Christian life. All through the history of the Christian church this distinction has been too much overlooked. And one result is that churchianity has too largely usurped the place of Christianity. Religion has constantly tended to become a thing of the sacred edifice and of the pew, to the exclusion of the home and of the workman's bench. The ministers of religion have been regarded as pre-eminently religious men, and the equal claim of the Christian laborer or merchant or professional man has been somewhat obscured. When a young man is converted he finds that the general sentiment is that if he is going to be a devoted Christian he should devote himself to distinctively religious work—become a minister, missionary, or a Young Men's Christian Association secretary, in other words, become a specialized Christian. We do not see how any one can go into our 'short-cut training-schools,' that within a few years have become so popular, without being convinced that many zealous young people are misled just at this point. They have failed to recognize the claims of the generic Christian life. They do not see that Christians are called to glorify God in their secular callings, and that the life of a minister or missionary is only one way of serving Christ."

CLOAKS AND CAPES.

The White Front Stores Open an Immense Consignment.

The ladies of Fresno will read with pleasure the news that the White Front Stores have just received a large and magnificent invoice of cloaks and capes, including the very latest novelties. The goods were selected with great care by competent buyers who know all about styles and values in ladies' garments. It is a well understood fact that the White Front Stores are the first to introduce to the retail buyers of Fresno any new styles of particular merit which appear in the Eastern or European markets. In many cases they get first pick from the factories, so anxious are many leading manufacturers to hold the trade of a house which they realize has grown, and is growing so rapidly in popular favor.

People like to trade at the White Front Stores because of the solid, sensible and thoroughly respectable way in which business is handled there. Not the slightest suspicion of boasting or humbugging of any kind is found in their advertising or in any of their methods.

It is standard, reliable goods always for the least money, polite attention to the customer and satisfaction guaranteed every time. The White Front Stores stick to the same methods that have always prevailed there and their business continues to grow in volume right along. *

AMUSEMENTS.

Corinne in "An American Beauty" Tomorrow Night.

One of the very largest and most elaborate productions to leave New York this season was the great Casino success, "An American Beauty," with the peerless Corinne in the title role, which will be seen at the Barton tomorrow night. This includes all the gorgeous scenery, wardrobe and paraphernalia with which the original success was identified.

We know of no artist so well adapted to the leading role as Corinne, with her vivacious and captivating ways, her magnetic personality and the many charms that have made her the favorite of the American public.

The opera, "An American Beauty," is bright, gay, full of melody, color, action, humor and chic. It may truly be said to be the best effort of two of the very brainy collaborators of this country, Mr. Hugh Morton, who wrote the book, and Mr. Gustave Kerker, the most tuneful and prolific of up-to-date composers.

Corinne's personal costumes are marvels of beauty and good taste, having been especially prepared by Worth and Felix of Paris, and Simpson, Crawford and Simpson of New York.

The company is under the personal direction and management of Messrs. Rich and Maeder, one of the best known theatrical firms of this country.

The box office will be open today from 10 p. m. to 1 p. m. The company will arrive on the 5.20 train this evening.

BRAIDED CLOTH GOWN FROM HARPER'S BAZAR

BRAIDED BROADCLOTH GOWNS.

In many of the gowns this season the waist is so short as almost to give the effect of a belted princesse gown, and this, says *Harper's Bazar*, even with cloth costumes which have usually been made with somewhat of a coat effect. While the style is one that is peculiarly becoming to a tall woman, it can easily be so arranged as to look well on a short figure, as the lines are long and slender, and the belt can be adjusted to make the waist line long if so desired. The gown illustrated above is in one of the new shades of brown, made to fit closely over the hips and with all fulness thrown back; the skirt is cut to flare out around the bottom; the front breadth has a graceful pattern in braiding, in which three kinds of braid are used—black with a touch of white, gold, and a flat black braid that runs from belt to hem, giving the effect of the skirt opening at one side. The waist fastens at the left side, and the braiding is put on to give the effect of a pointed yoke. Directions for cutting the skirt, waist and sleeves are given with the tissue-paper patterns of the gown sold by *Harper's Bazar*. Ruffles at the wrist and a belt of gold-colored taffeta carry out the gold of the braiding.

The hat has a stiff brim, but the soft crown of shirred brown velvet takes away any hard lines. Around the crown is a roll of dark brown velvet; a long black ostrich feather adds height, while the touch of color in the cerise rosette under the brim at the left side makes the hat much more becoming.

Summons

No. 7980. Dept. No. 2.

In the Superior court of the county of Fresno, state of California.

The Fresno Canal and Irrigation Company (a corporation), plaintiff, vs. Adeline E. Park, William Park, her husband, the San Francisco Savings Union (a corporation), John Doe, Richard Roe, Jane Doe and Mary Roe, defendants.

Action brought in the Superior court of the county of Fresno, state of California, and the complaint filed in the office of the clerk of said county of Fresno, state of California.

The people of the state of California send greeting to Adeline E. Park, William Park, her husband, the San Francisco Savings Union (a corporation), John Doe, Richard Roe, Jane Doe and Mary Roe, defendants.

YOU ARE HEREBY REQUIRED TO APpear in an action brought against you by the above named plaintiff in the Superior court of the county of Fresno, state of California, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this summons, if served within this county; or, if served elsewhere, within thirty days.

Said action is brought to obtain a judgment of this court against the said defendants, Adeline E. Park and William Park, her husband, for the sum of $1,075, with interest on the sum of $268.75 thereof, at the rate of seven per cent per annum from the first Monday in September, 1894; and on the farther sum of $268.75 thereof, at the said rate of interest from the first Monday in September, 1895; and on the farther sum of $268.75 thereof, at the said rate of interest from the first Monday in September, 1896; and interest on the remaining sum of $268.75 thereof, at the said rate from the first Monday in September, 1897; for $200 attorney's fees, and for costs of suit, for and on account of a certain water right contract located upon the premises described in the said complaint and hereinafter, the same being situate in the said county of Fresno, state of California, and particularly described as follows, to-wit: The northeast quarter of the southeast quarter, the west half of the southeast quarter, the north three-quarters of the east half of the southwest quarter, the southeast quarter of the southeast quarter of the southwest quarter, and the west half of the southwest quarter of section twenty-three (23), and the southeast quarter of section twenty-seven (27), all in township thirteen (13) south, range nineteen (19) east, of Mount Diablo meridian.

Plaintiff also prays that it be adjudged to have a lien upon said premises for the payment of the aforesaid sums; that the same be sold according to law and the practice of this court and the proceeds applied to the payment thereof; and plaintiff further alleges that the defendants herein other than said Park and wife have or claim to have some interest in or claim upon said premises, but that the same is subsequent and subject to the said claim and lien of the plaintiff, all of which more fully appears by plaintiff's complaint on file in said action, a true and correct copy whereof is hereto attached and herewith served, and the same is hereby referred to and made a part of this summons, and you are referred to the same for further particulars.

And you are hereby notified that unless you so appear and answer the said complaint as above required, plaintiff will cause your default to be duly entered and take judgment against you for the said sum of $1,075, for $200 attorney's fees, interest as alleged to be due in the said complaint, and costs of suit, the amount demanded in the complaint herein as arising upon said water right, contract or agreement, and will apply to the court for the other relief demanded in the said complaint.

A MOUNTAIN ROAD

Need of a Highway to the Minarets.

Rich Mines Awaiting Development—Trade Would Come to Fresno.

Thomas E. Hughes, in reference to the benefits that would accrue to Fresno and Madera counties from a road into the Minarets Mining district, says:

"After spending the two past summers at the Minaret mines I can see in the future one of the grandest mining camps ever seen on this coast. The miners who will be employed there will give a market for thousands of dollars' worth of vegetables, fruits and in fact everything raised in the county.

"If a wagon road were constructed so as to get machinery to those mines, and men of capital could get in to see them, in less than two years there would be several smelters put up and several thousand men employed. As soon as the mines were opened a railroad would be built, and that would connect with the present road at Frisco in Utah.

"The wagon road from Madera could go by way of the California mills to Beasore meadows, which would require but little work. From there, through Jackass meadows, to the summit of Granite Creek mountain would be a fine road. The only heavy work would be on Granite and North Fork, perhaps ten or twelve miles.

"On the 2d instant I met with the supervisors of Madera county and they all feel the necessity of the road and are willing to do their part, but they say that Fresno will be more benefited than Madera county and think the citizens of Fresno should stand part of the expense. The supervisors promised to put the surveyors at work as early next spring as possible."

THE COUNTY FATHERS.

Action on Road Matters—A Calaboose for Clovis.

The first business taken up by the supervisors yesterday was the petition of W. J. Kilby and others for a public road in the Coast Range mountains. A remonstrance was filed by Thomas J. McQuiddy and others. After hearing both sides the board continued the matter till next Wednesday at 2 p. m., in order that an opinion might be obtained from the district attorney as to the legality of the proceedings.

On motion of Supervisor Ross, seconded by Manly, the road across the Laguna de Tache grant was declared a public highway, as per deed on file.

On motion of Manly, seconded by Garrett, the proposition of A. H. Rusk to furnish the material and construct a calaboose at Clovis, 10x12 feet in dimensions, for $110, was accepted.

SETTING THE PACE.

Young and Enterprising Men Take the Lead.

In all trades and professions there will be found some fearless, tireless leaders who are constantly forging ahead, making discoveries and improvements which benefit mankind. As important as the application of new principles in the arts and sciences, is the discovery of better and surer methods of handling merchandise so as to bring down prices to the consumer and thus benefit the community at large.

To show what may be done in this way people have but to notice the case of Redlick Bros., the Mariposa street merchants.

Coming to Fresno but a short time ago and establishing themselves in a field already occupied by wide awake, intelligent merchants, they took the position of leaders at once, and set the pace for all. Their greater knowledge, indomitable energy and unequaled facilities for buying all operated to their advantage and enabled them to step at once into the position they now occupy far in advance of all others as makers of low prices. *

THE POULTRY SHOW.

Arrangements Being Made For a Varied Exhibit.

The meeting of the Fresno Poultry, Pigeon and Pet Stock Association at the city hall yesterday afternoon was well attended. President Chapman occupied the chair, and R. J. Venn acted as secretary.

The chairman spoke briefly on the benefits of raising first-class poultry, and was enthusiastic over the profits to be derived from chickens and eggs. "Talk about your citrus belt in Fresno county; why, its importance is insignificant when compared with the chicken industry," remarked the speaker, and his hearers nodded approvingly.

The meeting was called for the purpose of making arrangements for the poultry show to be held in Fresno on the 20th, 21st, 22d and 23d of December. Committees were appointed and other necessary business was transacted. E. F. Mitchell was appointed superintendent of the display. S. H. Cole will be doorkeeper and F. W. Breed of Michigan has accepted the position of judge.

A committee to visit merchants and solicit prizes to be awarded was selected as follows: E. F. Mitchell, R. J. Venn, S. H. Cole, H. Glassford and J. B. Ure.

The association adjourned to meet December 7th.

AT LAKE LINDERMAN.

Letter From Frank Warnekros. Hedinger Keeping a Store.

A. U. Warnekros has received another letter from his son, Frank, who is making his way to Klondyke by the portage route. The young man was at Lake Linderman at the time of writing the missive, which was dated October 12th. He had packed all his provisions to Linderman, and was comfortably situated in his tent, although outside the thermometer was hovering around zero. The weather was stormy and it was snowing and raining continually.

Frank expects to get to White Horse Rapids, where he intends to spend the winter prospecting. His companion, a Mr. Hamilton, became sick and had to return to San Francisco.

Dick Hedinger of Fresno is conducting a store at Sheep Camp on the Chilcoot trail.

Bloomingdale Returns.

Jake Bloomingdale, formerly an I street cigar dealer, arrived in Fresno yesterday from San Francisco. Mr. Bloomingdale started for the Klondyke on the 3d of August, but only got as far as St. Michaels, where he found it was impossible to make the trip through until spring. He says that from 1500 to 2000 people are on the way from Dawson City to Circle City and St. Michaels to spend the winter, owing to lack of supplies at Dawson.

WILL PLAY TODAY.

Heesemans and "Republicans" At Athletic Park.

The Heesemans of Oakland and the FRESNO REPUBLICANS will play at Athletic park this afternoon as scheduled. The enthusiasts were happy last night when the threatening clouds cleared away, insuring sunshine today. They were feeling glum when the storm came on last evening, fearing that the weather would prevent the contest this afternoon.

The Heesemans arrived on last night's train, and Manager Heeseman said that his team was in fine shape, and would give the REPUBLICANS a lively contest.

The following will be the lineup, there being some changes in the Heeseman nine;

Heesemans.		Republicans.
Smith	Shortstop	Francks
Foeuey	2d base	Brittan
Mulvey	Centerfield	Hanley
Peters	Catcher	Chance
Walthous	Leftfield	Hayes
Shea	1st base	Waggoner
Dean	Rightfield	Monroe
Danny	3d base	Hanlon
Farrow	Pitcher	Thompson

Praise and a Blessing.

R. M. M., care of the REPUBLICAN:—George Sand says: "In England there are three sexes, men, women and ministers." In Fresno there are at present four, including people who wear bloomers and play baseball. Some people mistake religion for indigestion. God bless the man who helps both by making us laugh through the columns of ONE OF THE CLEANEST PAPERS published in the state of California. Respectfully,

A MAN WITH A NORMAL LIVER.
